& MACHINING LTD.

144 Crossley Avenue
Truro Industrial Park

Our Machine Shop Services

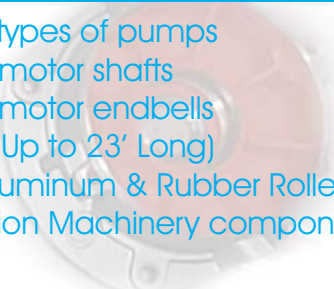

Manufacturing

- Gears
- Special Tools
- Various sizes of shafts
- Rollers (Steel & Aluminum - Up to 23' long)
- Various Custom Design Services

Re-Manufacturing

- Various types of pumps
- Electric motor shafts
- Electric motor endbells
- Augers (Up to 23' Long)
- Steel, Aluminum & Rubber Rollers
- Production Machinery components

Repair

- Rollers (Steel, Aluminum, Rubber)
- Bore holes in booms and buckets
- Bore and bush holes in rear-end housings
- Machine flanges, sprockets, gears or housings up to 48" in our vertical lathe
- Surface grinding pieces

Welding

- Spray welding (Both Rototec & Eutalloy)
- Aluminum and Stainless Steel Welding
- MIG Welding
- TIG Welding
- Brazing
- Plazark shapes up to 1/4" thick
- Boretch Welding

Our Custom Engineering Services

From the **PLANNING STAGE** to the **IMPLEMENTATION STAGE**

Our design team has built numerous production machines used by the food & manufacturing industry.

We offer:

- Design and fabrication services to manufacturing companies
- Manufacture, design and modification of parts for various type of food type production lines
- Design and manufacture various types of conveyor systems
- Design and manufacture various types of custom production machines
